BOEING CERTIFIED TEST REPORT

1. **Permanent Stain, Sun Fade** (near 100% on most fabrics) **and Wear Resistance**
2. **Seals All Fabrics/Carpets** – Naturals, Synthetics, silk, smooth leather / Won't change texture or color
3. **Can be applied to used fabrics** - Won't seal in dirt or stains
4. **Non Toxic & Non Allergenic** – Recognized as Safe by the EPA / No Fluorochemicals or [PTFE](#)
5. **California VOC Compliant** – Zero VOC's when dry

TESTED AND PROVEN BY INDEPENDENT LABORATORIES

Boeing Aerospace in Seattle - Chatfield Applied Research Laboratories in London - Commercial Testing Co. in GA - Certified Testing Laboratories in GA - Centre D' Essais Aeronautique De Toulouse in France - Forensic Testing Laboratories in GA - U.S. Testing Co. in L.A., CA - TRI/Environmental Inc. in TX – Chem Tech in Seguin, TX

Water Based Stain Test: Chatfield Applied Research Laboratories in London, England (condensed version)

<u>Staining Agent:</u>	<u>Untreated:</u>	<u>MicroSealed:</u>
Tea	Stained	No Stain
Coffee	Stained	No Stain
Orange Juice	Stain Trace	No Stain
Tomato Soup	Stained	No Stain
Fountain Ink	Stained	No Stain
Port Wine	Stain Trace	No Stain
Water Repellency	4.4%	98%

Testing showed MicroSeal reduced wear by comparing results with treated and untreated carpet. MicroSeal's active ingredients show a useful degree of permanency.

Oil Based Stain Test: Environmental Inc. in San Antonio, TX (Summary)

“Effective against Oil based staining” (oil based stains include chocolate, butter, makeup, grease, etc.)

Sun Fade Test: Chem Tech in Seguin, TX (Summary)

“MicroSeal is effective at reducing fabric degradation from both ultraviolet A and ultraviolet B.”
